General Warning statement

You are about to purchase product that is complex and difficult to understand: (CFDs and/or Forex and/or Binary Options). CNMV has determined that, due to its complexity and risk involved, the purchase of these products by retail investors is not appropriate/suitable.

The product you are about to purchase is a leveraged product. Please be aware that the losses incurred may be greater than the amount initially invested.

Please be aware that if you decide to close your positions immediately after purchasing it you will have to pay the bid of spread (the difference between the BID and ASK price).

Please be aware that if you decide to close your positions immediately after purchasing it you will have to pay the bid of spread (the difference between the BID and ASK price).

e.g. If you open a position of 1 LOT on EURUSD at the price 1.1153 using 50:1 leverage then means that your

margin required will be:

$100,000 \times 1.1153 \times 0.02 = \text{€ } 2,230.60$

As an example, the BID price is 1.1150 then the ASK price is 1.1153 (3 pips bid of spread). So, if you open a position under these circumstances and close it immediately you suffer a loss of \$30 USD (\$10 per pip).

Please note that concerning binary options you are able to close your position(s) immediately after purchasing it, (within 3 seconds) without any cost.

profits (but not future profits) – shall be executed by the client, via the online trading platform at any time of the day.

b) Withdrawal amounts are always returned back to the original source of deposit (the credit card, for example), up to the amount of the deposit. Any further amounts (profits) may be also credited to the credit card, or they will be forwarded by bank wire to the client's personal bank account, in the country where the trading account is registered.

c) Withdrawal requests are submitted by the client directly into the system via the online withdrawal facility. Withdrawal requests are not accepted over the telephone or by email, except in very rare cases when the client is undergoing technical difficulties, in which case the withdrawal may be executed manually for the client. All communications surrounding such manual withdrawals are logged and archived.

d) All withdrawal orders made by the client must follow the provision of the proper set of compliance documentations or any other type of client authentication as may be required from time to time by Anti-Money Laundering (AML) Regulations, credit card companies and the Website as a prerequisite, prior to the execution of a withdrawal order. Specifically for clients who deposited using a credit/debit card, no withdraw will be cleared for execution until the client has submitted a colour copy of the front and back of the credit card used. In the event where the client submits a withdrawal request prior to submitting the colour copies of the credit/debit card used, then the withdrawal will be placed on a 7 day pending status. If the client submits the missing document within the 7 days, then the withdrawal will be processed. To request the closure of their account clients must complete and submit the "Account Termination Form". Having completed the form and emailed it in to the Company the client should also ensure that all trades have been closed from within the trading platform, and then the client should also submit a withdrawal request for all the funds in their account.

In the event that a client's account is closed by the Company due to non-completion or the failing of compliance, then all the funds in the client's account will be returned to the source credit card/bank account. The MLCO will consider further investigation under AML policies.

The Company reserves the right to close the account of any client who is considered to carry a risk to the future of the Company and for the clients of the Company. This will especially apply if the client is suspected of using alternative pricing engines tools, or even insider information, which is bringing about continuous and large losses to the Company.

Prior to closing a client's account, however, a full investigation is made, and the client is placed in the high risk category. This will result in the client receiving pricing and spreads more appropriate to his continuous profits. If the client remains on the high-risk-category, which can only be the result of some kind of technical manipulation, the client's account will be closed. If the client's manipulative actions cannot be proved, the balance of their account will be withdrawn to the client, and a communication will be sent to the client explaining the reasons behind these actions. If, on the other hand, manipulation is proven, no further monies will be sent to the client, the account will be closed, the balance of their account will be withdrawn to the client without profits, a communication will be sent explaining the Company's actions, and possibly legal action will be taken against the client also.

18. Duly Authorized Persons

Only the account-holders themselves are authorized to trade using their individual trading accounts. If an account-holder allows any third person access to his account to trade on his behalf, he does so at his own risk, and the Company neither approves of such action, neither takes any responsibility for any/all losses incurred.

- d) It is hereby clarified that the said records/recordings are the sole property of the Company and it is under no obligation to deliver or expose such material to anyone, unless required by law / a competent authority. 20. Risks and Liability

- a) All Transactions to be carried out by you are executed on your behalf and at your risk. Neither the Company nor any authorized party on its behalf shall be held liable for any loss, damage or debt incurred by you resulting directly or indirectly by actions contemplated under this Agreement. To remove any doubts, in any event, any sum to be claimed by you may not exceed your Collateral.
- b) In reading this, all clients hereby declare that they understand and accept that a fundamental pre-condition to this Agreement, relates to the Company's right to close at any time, without an advanced notice, any Transaction executed by the client, in the event that their portfolio shall be of zero value or less, as calculated with respect to the fluctuations in the Financial Contracts' prices.

21. Reports

The Company is following strictly all EMIR reporting requirements. At the end of each trading day, confirmations of all Transactions that have been executed on that trading day will be available via the Customer's online account through the System. Clients may request to receive account statements monthly or quarterly via email, by providing such a request to the Company, but the Company is not obliged to provide the Clients with hard-copy account statements. The account statement is provided at the expense of the client.

22. Commissions and fees

Clients are not charged any commissions or fees by the Company for any Transaction executed unless agreed otherwise by the Parties hereto. However, any and all bank charges (concerning transfer, charges etc) will be

deducted from the client's cash balance. As bank charges are constantly changing, please contact support for specific information. There is also a €10EUR a month inactivity fee which will be charged to each client whose account is inactive for a period greater than 3 months. Activity, in this sense, is when a client is logging in to their trading account. The fee will be deducted directly from each client's trading account, from their available balance. To avoid this €10EUR inactivity charge a client must log in to their trading account at least once every three (3) months. Clients whom have never deposited money in their trading account, will not be charged an inactivity fee. Clients with less than a €10EUR balance in their trading account, will be charged that balance amount, thus bringing their account to zero.

Suspended accounts are still liable to pay the inactivity fee, if conditions arise. Closed/disabled accounts are not charged inactivity fees. For foreign currency accounts the inactivity fee will be a direct conversion of €10EUR, using the conversion rate of the day.

The Company reserves the right to apply fees to all accounts irrespectively of their status (closed, inactive, suspended) to cover registration and general expenses arising for registering and maintaining clients' trading and bank accounts. This cost is limited to the amount of €50 EUR and charged as administration fee on a monthly basis.

This amount/fee will be deducted directly from each client's available funds, from their real balance every month. The Client is deemed to have seen, reviewed and considered the Company's commission, costs and financing fees and any changes that the company may make thereto from time to time. The amount deducted from your account, will be converted to account's base currency using the current exchange rate.

In any case that your account is suspended or inactive, Novox Capital suggest to the owners of such accounts to submit a withdrawal request in order to avoid any additional costs.

Clients hereby waive any claims of indemnification / suits / causes of action against the Company in such an event and acknowledge that such waiver is a pre-condition to the validity of this Agreement.

b) The Company reserves the right, to cancel any Transaction which due to a System and/or human error, whether under the control of the Company or not, has been executed at a price which at the time of the Transaction was not the indicative and/or accurate price of that said Financial Contract created by the transaction.

Appendix 1 – FX and CFD TRADING TERMS

Appendix 1 is applicable only to those Clients trading in the Currency Pairs (for FX Contracts), Equity Indices, base or precious Metals, Forwards, Commodities, Stocks, Shares Indices and Futures. Risk Warning: Contracts for Difference (CFDs) and Trading Sport FX are considered complex financial instruments. Both Spot FX and CFDs, which are leveraged products, incur a high level of risk and can result in the loss of all your invested capital. As a result, CFDs may not be suitable for all individuals. You should not risk more than you are prepared to lose. Before deciding to trade, you shall ensure that you understand the risks involved and take into account your level of experience. The client may seek independence advice, if necessary.

Opening and Closing Orders/Transactions

In order to open a Transaction in an FX and CFD on the Trading Platform, you must either open a Buy or a Sell, at the price quoted by the Trading Platform at the time of such Transaction. Transactions or open positions cannot be transferred to other FX and CFD providers or their platforms. Full details of our Order Execution Policy can be found on the Website.

On the Trading Platform, you shall be entitled to make an offer to open a Transaction at the best available rate on the Trading Platform ("Market Order") at the time of opening such a Transaction, unless you specify a particular price in which to make an offer to open a Transaction ("Limit Order"). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by you in your Market Order, within a certain range as specified on the Trading Platform from time to time. If you choose to open a Market Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

With respect to a Limit Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Limit Order may be accepted at a lower price if a buy, or higher price if a sell, than the price indicated by you in your Limit Order as specified on the Trading Platform from time to time. If you offer to open a Limit Order, your offer may be accepted at the price indicated by you in your offer. At any time prior to acceptance of a Limit Order, you may cancel the Limit Order without any further liability. If you choose to open a Limit Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

Orders can be placed and (if allowed) changed within the Trading Hours for each type of FX and CFD appearing on the Company's Website, as amended from the Company from time to time. The Client agrees that the Orders to open a position if accepted by the Company outside the Trading Hours may not be capable of execution should the market not trade at the price stipulated once Trading Hours commence.

Pending Orders, not executed, shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position.

Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Trading Account Equity reaches zero.

Orders may be removed by the Client before they are executed.

Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).

The Client may change the expiration date of Pending Orders or delete or modify a Pending Order before it is executed. In order to change the expiry the Client will need to cancel the Order and place a new one.

FX and CFD Orders on currencies are executed as follows:

- ✓ Take Profit (T/P) orders are executed at stated prices;
- ✓ Stop Loss (S/L) orders are executed at first market prices;
- ✓ Stop Loss (S/L) orders set for lock positions are executed at first market prices;
- ✓ Limit orders are executed at stated prices;
- ✓ Buy Stop and Sell Stop orders for position opening are executed at first market prices.

The Client acknowledges and agrees that due to market volatility and factors beyond its control, the Company cannot guarantee that an Order will be executed at the level specified in the Client Order, for example, an Order

may be closed at a worse price than as originally specified by the Client in such an Order. In such an event, the Company will close the Transaction at the next best price. For example, with respect to a Close at Loss, in the case of a Buy to close, the price of an Underlying Asset of such Order may suddenly increase above the Close at Loss price, without ever reaching such price. In the case of a Sell to close, the price of an Underlying Asset of such Order may suddenly decrease below the Close at Loss price, without ever reaching such price.

In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, the Company not send a re-quote to the Client (with the price it is willing to deal until the price the Client asks is available). The Order will be rejected and the Client will need to place another Order.

Stop and Limits

You acknowledge and agree that due to market volatility and factors beyond our control, we cannot guarantee that an Order will be executed at the level specified in your Order, for example, an Order may be closed at a worse price than as originally specified by you in such an Order. In such an event, we will close the Transaction at the next best price. For example, with respect to a Close at Loss, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly decrease below the Close at Loss price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly increase above the Close at Loss price, without ever reaching such price.

The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

Premium (or Swaps)

Any open Transaction held by you at the end of the trading day of the Underlying Market or over the weekend when the relevant Underlying Market is closed, shall automatically be rolled over to the next business day to avoid an automatic close. You acknowledge that when rolling such Transactions to the next Business Day, a Premium/Swap will be either added or subtracted from your Account with respect to such Transaction ("Rolling"). The Premium amount is a constant percentage of the position value and is based on a number of factors including among others, whether the Transaction is a Buy or a Sell, interest rates, Underlying Asset differentials, daily price fluctuations and other economic and market related factors.

In deciding whether to open a Transaction for a specific Underlying Asset, you acknowledge that you are aware of the Premium.

You hereby authorize us to add or subtract the Premium/Swap to or from your Trading Account for any open Transactions that have accrued a Premium/Swap, in accordance with the applicable rate thereto, each day at the time of collection specified on the Trading Platform for each individual Underlying Asset, as applicable.

Expiry Transactions

We may, in our sole and absolute discretion, set an Expiry Date and time for a specific Instrument. In the event, we set an Expiry Date for a specific Underlying Asset, it will be displayed on our website or/and within the Trading Platform. It is your responsibility to make yourself aware of the Expiry Date and time.

If you do not close an open Transaction with respect to an Underlying Asset which has an Expiry Date the Transaction shall close at a price which will be the last price quoted on the Trading Platform immediately prior to the applicable Expiry Date and time.
